STATE CLEARINGHOUSE

# NEWSLETTER

February 16 through 29, 2000

## **STATE CLEARINGHOUSE NEWSLETTER**

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **February 16 through 29, 2000.**

### **CLEARINGHOUSE CONTACTS**

Please contact the Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613.  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html](http://www.opr.ca.gov/clearinghouse.html)

Questions regarding federal grant notices should be directed to Sheila Brown. Questions regarding processing of environmental documents should be directed to:

Katie Shulte (for projects in Northern California)  
Scott Morgan (for projects in Southern California)

### **CLEARINGHOUSE MAILING ADDRESS**

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

### **INFORMATION AVAILABLE ON-LINE**

Information on EIRs and Negative Declarations that have been submitted for state agency review is currently available on the LUPIN web page at [http://ceres.ca.gov/planning/eia\\_index.html](http://ceres.ca.gov/planning/eia_index.html).

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available at [http://ceres.ca.gov/planning/pub\\_org.html](http://ceres.ca.gov/planning/pub_org.html).

# Federal Notices

# Intergovernmental Review Notices (February 16 through 29, 2000)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

Documents Received during the Period: 02/16/2000 - 02/29/2000

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, February 16, 2000</u></b>			
2000022050	Chester Landfill (Multi-Counties) Plumas County Environmental Health Chester, Almanor--Plumas Update the Solid Waste Facility Permit and Waste Discharge requirement of the existing landfill to reflect recent change in the design and operation of the facility.	neg	03/16/2000
2000022058	EL Faro Fast Food Restaurant South San Francisco, City of South San Francisco--San Mateo Addition of a drive-thru window to an existing fast food restaurant	neg	03/16/2000
2000022059	Chester/Lake Almanor Snowmobile OHV Parking Lot; CP 10-99/00-01 Plumas County Chester--Plumas This project is located near the intersection of State Route 36 and County Roads A-13 and 322, between the existing Chester/Lake Almanor Solid Waste Transfer Station and State Route 36. It will consist of a paved parking area for vehicle/trailer combinations as well as single vehicles. Existing right of way fencing will be removed and new fencing put up to separate the transfer station from the recreational users. Trees and brush will be removed from the site, minor grading will be done and sub-base, base and AC paving will be placed on the parking area. A Forest Service informational kiosk will be constructed. This work will take place on land set aside for the transfer station and Caltrans right-of-way. It is proposed that an agreement be reached with Caltrans to relinquish this right-of-way to the original owner (Roseburg Forest Products) as excess and consequently to the county. An agreement will need to be reached between Plumas County and the Caltrans right-of-way office before the applicant can proceed with the proposal involving work within the right-of-way.	neg	03/17/2000
2000022060	Soulsbyville School Expansion Soulsbyville School District Soulsbyville--Tuolumne Soulsbyville Elementary School: Soulsbyville Elementary School Expansion including: 1.) On the existing school site, expansion of parking facilities (approximately 60 new spaces), re-striping of the parking area and existing school entrance site, and relocation of existing facilities for the Amador Tuolumne Community Actioin agency (ATACC); 2.) On the expansion area (adjacent to the south), the addition of play fields and hard courts on 5.6+/- acres; and 3.) An Encoachment Permit from Tuolumne County for improvements within the SoulsbyvilleRoad right-of-way at the existing school entrance and a Grading Permit from Tuolumne County for grading associated with the school expansion.	neg	03/16/2000
2000022062	San Joaquin Delta College Microscopy Technology Center San Joaquin Delta Community College District Stockton--San Joaquin Construct a new 17,400 gsf Microscopy Technology Center to replace existing inadequate facility on San Joaquin Delta College campus consistent with the San Joaquin Delta College Educational Facilities and Resource Master Plans (1999).	neg	03/16/2000

2000028135	<p>Ulati Creek Bridge Replacement Caltrans #4 --Solano</p> <p>The project will replace the existing two-lane bridge, which was built in 1943 and is at the end of its serviceable life. The new bridge will also be built for two-lane traffic. However, it will have longer spans and a raised deck elevation. Additional work includes realigning four existing access roads that are adjacent to Ulati Creek. The project will benefit public safety and the environment via modern design and construction techniques that are in compliance with state and federal laws.</p>	noe	
2000028136	<p>Extension of Parking Lot "F" 1999 The Trustees of the California State University --Sonoma</p> <p>This is an extension of less than 50% of an existing 695-space parking lot. The extension of pavement into an undeveloped field to the west of existing lot is for 160 spaces. Project will include necessary drainage, paving, landscaping and irrigation. Construction of 160 additional parking spaces east of Parking Lot "F" accessed from Redwood Circle. Project shall include all necessary excavation, drainage, paving, landscaping, irrigation, sidewalks and curbing and lighting to construct a permanent parking lot. 1.) Rough grading and drainage in each area as shown on the Master Plan location map. 2.) Excavate to remove adobe soil and bring in appropriate rock base and / or lime treat the adobe soil, base and sub-base, compact and complete with A.C. paving. 3.) Provide appropriate lighting similar to that which has been installed in other lots.</p>	noe	
2000028137	<p>Telecommunications Infrastructure Up-grade-Sonoma State University The Trustees of the California State University --Sonoma</p> <p>The project consists of installation of an inter-building fiber-optic backbone within the campus, by upgrading existing and installing new inter-building media pathways, including manholes/pullboxes, buried conduit and backbone cabling. The project will include intra-building pathways by upgrading or installing telecommunications closets, pathways, cabling and jacks within individual buildings.</p>	noe	
2000028138	<p>Remodel of Ruben Salazar Building The Trustees of the California State University --Sonoma</p> <p>This project is the renovation of the University's existing library building to take place when the library moves to the new Information Center. The renovated building is programmed to be 115,427 gross square feet of space to be used as a combination of instructional space and administrative space. The renovation will include wall partitions, ceiling and floor finished along with repairs to the building air handling systems and electrical systems. The exterior of the building will remain as it exists as will the surrounding site accesses.</p>	noe

1995111020	EXPANSION OF THE GALLERIA AT SOUTH BAY Redondo Beach, City of REDONDO BEACH--LOS ANGELES The project consists of the demolition of two existing movie theatres and the construction of a new, 93,702 square-foot retail structure on property located within a Commercial-Regional (CR) zone. The new retail structure is being constructed for the purpose of operating a retail business, known as "Expo Design Center" that displays and sells middle to high-end interior design products and services. The proposed retail structure is to be located at the south end of a regional shopping center known as "Galleria at the South Bay". The approval of the proposed project is consistent with the City's goal for the subject property, as contained in the General Plan, which states that the goal for regional-serving land uses is to provide land uses which attract a regional customer base and contribute significant revenue to the City. The primary objective is to allow for the continuation and expansion of regional-serving specialty, entertainment, and related uses at the Galleria at South Bay and adjacent properties classified as Commercial Regional.	eir	03/31/2000

2000022067	Restoration of Canada del Cierbo Contra Costa County Crockett, Rodeo--Contra Costa The Contra Costa County Flood Control District (District) and the Contra Costa County Public Works Department (Department) proposes to create and restore ten acres containing degraded/marginal riparian floodplain, and seasonal herbaceous wetlands to mitigate for past and future unavoidable impacts to wetland resources. The site is located in the Canada del Cierbo southeast of the Cummings Skyway / I-80 interchange. The project will be built in two phases. The first phase will create 1.22 acres of wetlands to mitigate for unavoidable impacts incurred during two previous projects: the emergency landslide repair of Hill 310, and the extension of Cummings Skyway from I-80 to San Pablo Ave (Figure 3). Phase 1 will be restored in the summer and fall of year 2000. The second and final phase will be constructed after the Department and District have created a mitigation banking instrument with the US Army Corps of Engineers (Figure 4). The intent of the phasing is to quickly mitigate for past projects, while allowing for adequate time to negotiate the banking instrument.	<b>neg</b>	03/20/2000
1993062028	SIERRA COUNTY GENERAL PLAN Sierra County Croce-Zone Amendment: Zone amendment from Single Family Residential (R-1) to Community Commercial (CC), consistent with the Sierra County General Plan. "X" Overlay Zoning District: Creation of the language for the "X" Overlay Zoning District consistent with the Sierra County General Plan.	<b>nod</b>	
1993062028	SIERRA COUNTY GENERAL PLAN Sierra County General Plan Amendment and Zone Amendment to facilitate the subdivision by Tentative Parcel Map of a 53.70-acre property into three (3) parcels.	<b>nod</b>	
1999102098	State Route 84 (Woodside Rd) Widening Project Redwood City Redwood City--San Mateo To add a third lane to both eastbound and westbound State Route 84 between Highway 101 and El Camino Real.	<b>nod</b>	
1999122055	Pocket Area Self Storage Sacramento, City of Sacramento--Sacramento Special Permit to construct an 822 unit self storage facility on 5.07+ net vacant acres in the General Commercial- Airport Overlay 3 (C-2-PUD-EA-3) zone of the Greenhaven Executive Park Planned Unit Development; Special Permit to reduce the parking requirement for a self storage facility from 9 spaces to 7 spaces; Lot Line Adjustment to reconfigure three existing parcels into the three proposed parcels.	<b>nod</b>	
2000012033	Sherman Tentative Parcel Map and Rezone (P-99-57) Trinity County Planning Department Hayfork--Trinity Tentative parcel map to create one parcel (16.5 acres) and a remainder (145.3) from a 161.8 acre parcel currently zoned AG-40. This project will also rezone the 161.8 acre to AG-80 (80 acre minimum).	<b>nod</b>

	2004, for industrial maintenance coatings and January 1, 2003, for all other coating categories. Other components of the proposed SCM include a three-year "sell-through" provision (for coatings manufactured before the applicable effective dates), definitions, test methods, standards for painting practices and thinning of coatings, and container labeling and reporting requirements. The Draft Program EIR concludes that no significant adverse environmental effects would result from the proposed project.		
1999101083	Merced County Courthouse Facility Merced County Merced--Merced Construction of a 50,000 square foot building at the corner of M and 22nd Streets in Merced for use by the County Courts. The 3-story building would require the demolition of the Old Library, a listed historic resource. The project includes remodeling of other existing court buildings.	eir	04/03/2000
2000021064	General Plan Amendment No. 99010 Merced County Hilmar--Merced To amend the General Plan from Hilmar Specific Urban Development Plan (SUDP) Residential Reserve to Hilmar SUDP Low Density Residential with a concurrent zone change from the A-1 (General Agriculture) to R-1 (Single Family Residential) along with Conditional Use Permit for construction of a family center building consisting of classrooms, recreation facilities, and community centers.	neg	03/17/2000
2000021065	101 14th Street Pacific Grove, City of Pacific Grove--Monterey Demolition of existing 2 unit dwelling group and construction of a new single family residence on the site. The proposed project includes examination in an archaeologically sensitive area of the coastal zone.	neg	03/17/2000
2000021066	Emergency Generator & Fuel Storage Tank for Hopkins Marine Station Pacific Grove, City of Pacific Grove--Monterey Emergency Generator & Fuel Storage Tank.	neg	03/17/2000
2000022068	Bruns Ranch Partnership Tentative Parcel Map Alpine County --Alpine The project is a proposed subdivision of approximately 189 acres into three one-acre lots and a remainder parcel containing 186 acres. The site is located approximately 1 1/2 miles south of the California-Nevada state line and 1/2 mile east of State Route 88. More specifically, the parcel is located on Foothill Road, just south of Fredericksburg Road. Access to the proposed 1-acre lots will be from Foothill Road. The portion of the site proposed for development is moderately sloping (approximately 10% grade) bench with sage brush as the dominant land cover.	neg	03/30/2000

<b><u>Documents Received on Friday, February 18, 2000</u></b>			
2000022070	City of Vacaville Corporation Yard Expansion Vacaville, City of Vacaville--Solano Expand the existing City Corporation Yard. The corporation yard includes facilities for maintenance and fueling of City vehicles, storage of bulk quantities of construction and repair materials for road and pipeline work, and the City's water treatment plant. The expanded facilities will provide for new office spaces, parking and storage for public works, transit contractors, employees and equipment. The corporation yard expansion will be completed in phases. The first phase would include improvements to accommodate a transit facility for the storage and operation of City buses including a transit office (2800 sq. ft.), and parking for 25 buses, 8 paratransit vehicles, and 28 employees and visitors.	<b>neg</b>	03/17/2000
1999111001	Dos Lagos Specific Plan, General Plan Amendment, Annexation and Redevelopment Plan Corona, City of Corona--Riverside The Dos Lagos Specific Plan, Annexation No. 94, and the actions and/or plans necessary to facilitate the project include, but are not limited to: A) a Request for Annexation (from Riverside County into the City of Corona), B) a General Plan Amendment, C) a Specific Plan for the Dos Lagos project, D) the adoption of a Redevelopment Area by the City of Corona for the Dos Lagos Specific Plan, F) Resource Agency permitting for the Dos Lagos project, and G) a possible master subdivision map. The project will annex a total of 929.7 acres into the City of Corona and adopt City zoning, general plan and specific plan designations for a mixed-use project of approximately 542 acres within the larger annexation area.	<b>nop</b>	03/20/2000
2000021044	Pacific Heights Los Angeles County Department of Regional Planning Hacienda Heights--Los Angeles The project will consist of 50 single-family homes, a water tank and supporting manufactured slopes and infrastructure on 38.2 acres of a 114.3-acre site in the community of Hacienda Heights, Los Angeles County, California. The 38.2-acre developed area will consist of 20.8 acres of vegetated cut and fill slopes, including detention/debris basin, and 17.4 acres of streets, developed lots and infrastructure. The remaining 76.1 acres will be preserved and donated as natural open space. The proposed Tentative Tract Map is shown in Exhibit 1. Approximately 2,560 feet of residential streets, with associated underground water, sewer and utility lines, will be constructed to serve the residences. Streets will be curb and gutter and range from 34 feet to 36 feet wide with six-foot-wide sidewalks in 55-foot to 64-foot right-of-ways. A private road 1,920 feet long will provide access to the water tank. Cut and fill will be approximately 688,000 and 671,600 cubic yards, respectively, with a maximum of 16,400 cubic yards of export. Access, water, sewer and utilities are already available to the site. No off-site improvements are anticipated.	<b>nop</b>	03/20/2000

1994051036	ROUTE 14 HOV - SANTA CLARITA/PALMDALE Caltrans, HQ SANTA CLARITA/PALMDALE--LOS ANGELES The project consists of adding an additional lane in each direction on the Antelope Valley Freeway (Route 14) by restructuring the median and shoulders. Improvements will include: Shoulder widening in the median and at various locations on the right shoulder, Bridge widening, a HOV lane in each direction, Widen and raise the Sand Canyon Overcrossing, California Highway Patrol (CHP) enforcement areas, Noise barriers.	<b>nod</b>	
1995032005	STATEWIDE ELECTRIFIED FENCE PROJECT Corrections, Department of STATEWIDE--STATEWIDE INSTALLATION AND ACTIVATION OF LETHAL ELCTRIFIED FENCES WITHIN THE SECURED PERIMETER OF 29 EXISTING AND PROPOSED PRISONS THROUGHOUT THE STATE.	<b>nod</b>	
1995033060	General Plan Economic Element & Negative Declaration Napa, City of NAPA--NAPA Addition of an Economic Element to the City of Napa General Plan (adopted 12/1/98). The Economic Element establishes policies and implementation programs for economic development in the city over the next 20 years while recognizing the importance of supporting components to the economy addressed in other chapters of the General Plan. The politics and programs of the Economic Element provide a strategy for achieving optimum economic health given to the constraints of the limited land supply within the city's Rural Urban Limit (RUL).	<b>nod</b>	
1999071102	Goleta Presbyterian Church, United Cerebral Palsy Foundation, Fairview Center Santa Barbara County Goleta--Santa Barbara The project includes division (TPM 14,485) of an existing 6.11 acre property located at 6067 Shirrell Way and owned by the Goleta Presbyterian Church into two parcels of 4.54 acres (Parcel A) and 1.57 acres (Parcel B). The Church proposes to add approximately 12,458 square feet of new building area to existing church facilities on proposed Parcel A (8-CP-028 and 98-DP-037). The United Cerebral Palsy Foundation proposes to construct 13 one-story attached residential units for persons with cerebral palsy on proposed Parcel B (98-DP-028) and 99-CP-076). A lot line adjustment is also proposed between the 6.1 acre property and the adjacent 18.95 acre Fairview Center property. A transfer of a 318-foot strip of land (0.17 acre) in the southwest corner of the 6.1 acre property to the Fairview Center property is also proposed for (98-LA-019). The transferred property is proposed to be redesignated from "Residential, 4.6 units/acre" and "Design Residential, 4.6 units/acre" to "General Commercial" and "Shopping Center" (98-GP-028 and 98-RZ-023).	<b>nod</b>

2000029021	Soul of the Wolf Wildlife Sanctuary San Diego County, DPLU Warner Springs--San Diego The project is a Minor Use Permit for an animal sanctuary for wolves, lions, tigers, foxes and servals. The animals were all born in captivity and have been brought to the sanctuary because the animals were abandoned or let go by previous owners. The property is 40 acres in size located in remote area of the County. The animals will be kept in double entry steel cages on the property with a additional fence around the animal compound portion of the site. Based on the results of a noise study, noise attenuation walls must be constructed to assure that noise from howling wolves and roaring lions are mitigated to below a level of significant. The project is consistent with the General Plan because animal raising is anticipated by the (18) Multiple Rural Land Use Designation which is applied in remote areas to broad expanses of rural land with the overall low population density and with an absence of most public services. The property is zoned S92 General Rural and contains an "O" Animal Use Type Designator which permits Specialty Animal Raising Wild or Undomesticated Use Type with approval of a Minor Use Permit pursuant to The Zoning Ordinance Section 3100; therefore, the proposed project is consistent with plan and zone.	<b>nod</b>

2000021100	El Monte Operable Unit Early Response Action Program San Gabriel Basin Water Quality Authority Rosemead--Los Angeles The San Gabriel Basin provides drinking water for over a million residents. Volatile Organic Compound (VOC) contamination was discovered in several areas during the late 1970s. In 1984, the San Gabriel Valley was placed on the U. S. Environmental Protection Agency's (EPA) National Priorities List (Superfund). The El Monte Operable Unit is one of the areas requiring cleanup under the Superfund laws. The El Monte Operable Unit is one of the areas requiring cleanup under the Superfund laws. EPA has released their proposed plan that describes their preferred alternative for containing and preventing further contaminant migration. The San Gabriel Basin Water Quality Authority (WQA) has partnered with the Northwest El Monte Community Task Force and the city of El Monte to fund a portion of the remedial actions. AS WQA is also funding a portion of the project, WQA has undertaken this initial Study to fulfill California Environmental Quality Act requirements.	neg	03/24/2000
2000021102	Susnar Commercial Building Santa Barbara County Montecito--Santa Barbara Develop a net 9,816 square feet of new development, w/10,236 square feet of total development. One apartment unit is also proposed.	neg	03/24/2000
2000022089	Siskiyou County Agriculture Department (Small Animal Impound Facility) Siskiyou County Planning Department Yreka--Siskiyou The County Animal Control Office proposes to develop a small animal impound facility to meet the growing demands of the County's Animal Control activities. The facility would include a small office area, equipment storage room, and 20 heated and enclosed kennels, within a 1,400 square-foot building with concrete floor. A low-cost spray and neuter clinic may be incorporated within the facility. The structure would be built adjacent to the existing County-owned carport and storage building.	neg	03/24/2000
2000022090	Surface Water Supply Agreement with South San Joaquin Irrigation District & Phase 1 - Jack Golf Course Groundwater Recharge Project Ripon, City of Ripon--San Joaquin Surface Water Supply Agreement with the South San Joaquin Irrigation District (SSJID). The City of Ripon has entered into an agreement with the South San Joaquin Irrigation District for a surface water supply. The City intends to initially use the water for ground water recharge. The most economic and expedient approach to utilizing the water is to select recharge locations adjacent to or very near to existing District distribution canals of conduits. The District normally delivers water during the irrigation season, March 15 through October 15. Currently there are three (3) groundwater recharge projects planned to implement the agreement with the Jack Tone Golf Course project being the Phase 1. Phase	neg	03/24/2000

	1- Jack Tone Golf Groundwater Recharge Project. The Jack Tone Golf Course is located on city-owned property at the south end of South Jack Tone Road between South Jack Tone Road and the extension of Mohler Road. The operator of the course has constructed a 0.6 acre water hazzard, which until recently, was filled by water from an on-site well. However, the percolation rate is so high that it was economically impossible to keep the hazzard full, thus pumping was stopped.

1989041702	Surface Mining Permit No. 176, Revision No. 1 Riverside County Indio--RIVERSIDE The proposed project is an expansion of an existing sand and gravel surface mine and related aggregate processing facility. The total project area is to expand from approximately 891 acres to 1206 acres. The total mining acreage is proposed to expand from 315 acres 727 acres. The existing permit was approved for 20 years on January 26, 1992. The expansion proposes to add 30 years to the life of the permit. Approximately 65 million tons of sand and gravel is to be mined in five proposed phases with the proposed expansion. The applicant does not propose to increase annual tonnages, increase truck traffic or construct additional processing plants.	nop	03/24/2000
2000021091	Santa Monica Breakwater, Dock and Moorings Santa Monica, City of Santa Monica--Los Angeles The project involves the replacement of the breakwater, which has become degraded due to 1983 storm damage, and replacement of 12 moorings, and boating dock attached to the Pier to provide access to the moorings.	nop	03/24/2000

1998032010	LAKE MADRONE WATER DIST. APPL. TO SWRCB FOR DAM & RESERVOIR Lake Madrone Water District Application 30657 seeks an appropriate water rights to divert 200 acre-feet per annum (afa) of water to storage from Berry Creek tributary to the North Fork reservoir with a capacity of 200 acre-feet. The water will be diverted to storage from March 1 to April 15 of each year for the non-consumptive purpose of recreation, fish and wildlife preservation and enhancement, and fire protection. The project consists of a reservoir and an earth and concrete dam 35 feet high and 350 feet long. The reservoir has a surface area of approximately 25 acres and has a maximum depth of 25 feet, when full. No new construction or site clearing activities will be associated with the project. The applicant states that it diverts water to storage only when the reservoir has been lowered for maintenance and needs to be refilled. The season of diversion specified in A30657 is limited to March 1 to April 15.	<b>nod</b>	
1998081038	Hill Canyon Wastewater Treatment Plant Expansion Thousand Oaks, City of Thousand Oaks--VENTURA The proposed project includes the construction of tertiary filters, a secondary clarifier, gravity belt thickening facility, new belt press dewatering/generator facility, instrumentation and control system, rapid mixing chamber/ flocculation basin, electrical/mechanical/generator/fuel storage system, site/yard piping improvements, laboratory/operations/administration building, main/secondary access bridges, and maintenance buildings.	<b>nod</b>	
1998124006	Construct Passing Lanes & Improve Shoulder on Route 154 Caltrans, HQ Santa Ynez, Solvang--Santa Barbara This project would construct east and west-bound passing lanes, left-turn channels and improve the shoulder of Route 154 east of Paradise Road in Santa Barbara County.	<b>nod</b>	
1999042087	El Dorado Reservoir Line, Cover, and Tank Project El Dorado Irrigation District The project consists of retrofitting 11 existing open reservoirs with concrete liners and concrete or metal cover, replacement of the open reservoirs with steel storage tanks, or temporary decommissioning of the sites.	<b>nod</b>	
1999071109	Realignment of Route 101 Southbound Lanes Near Pinecate Rocks California Department of Transportation Aromas, San Juan Bautista--San Benito Increase the existing horizontal curve radius of the southbound lanes from 305 meters (1000') to 518 meters (1700') by realigning them into the median between the project limits (approximately Cannon Road to Cole Road.)	<b>nod</b>

1999121110	<p>freeway landscape, golf courses, parks, school grounds, and homeowners association and arterial landscape.</p> <p>Rancho Jamul Mitigation Bank California Department of Fish and Game Jamul--San Diego</p> <p>The project applicant proposes to establish a wetland mitigation bank on the Rancho Jamul Ecological Reserve, San Diego County. California Department of Fish and Game is adopting a Negative Declaration and executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 (SAA No. 5-287-99) of the Fish and Game Code to the project applicant, Wildlife Inc. The project would impact at worst 5,632 feet of wetlands habitat (willow riparian and freshwater marsh) to place headcut stabilization structures within Jamul Creek which would provide long-term benefits to function. Impacts would be off-set through removal of exotic plants and long-term management of 3 acres of stream channel along Jamul Creek. A wetlands mitigation bank would be created through the creation of 45 acres of wetland habitat and 1.7 acres of unvegetated stream channel along portions of Dulzura and Jamul Creeks. In addition, 51.8 acres of existing stream channel would be enhanced through the removal of exotic plants and long-term management.</p>	<b>nod</b>	
20000122006	<p>Temporary Urgency Change By The U.S. Bureau Of Reclamation To Add The State Water Projects Water Resources Control Board, State --San Joaquin</p> <p>Reclamation proposes to add the State Water Project's (SWP) Harvey O. Banks Pumping Plant as an additional point of diversion and rediversion under Reclamation's above-listed water right permits. Approval of the petition would allow Central Valley Project (CVP) water appropriated under the above-listed water right permits to be directly diverted and/or rediverted from storage at the SWP Banks Pumping Plant and delivered through the SWP facilities to O'Neill Forebay and then to storage in San Luis Reservoir. Reclamation is requesting the change to facilitate the diversion and storage of CVP water in the federal portion of San Luis Reservoir so that the river can be filled to capacity when water becomes available sometime between now and April 15,2000. The CVP's inability to fill the federal portion of San Luis Reservoir without using the Banks Pumping Plant is a result of environmental protection actions taken in 1999. The estimated shortfall would have resulted in lower allocation of CVP water for CVP purposes or in decreased storage of CVP water in San Luis Reservoir at the end of the water year 2000. Absent the approval of the request, the SWP would use the excess capacity at Banks to move water into the federal share of San Luis Reservoir for use by the SWP. The amount of water requested under this change is not to exceed 244 thousand acre-feet (TAF) of CVP water appropriated under the above-listed water right permits assuming the 50 percent exceedance hydrology and the availability of excess flows. Under the 90-percent exceedance hydrology, project operations are limited by available water supply rather than Tracy pumping capacity. Hence, under dry conditions, Reclamation's diversions under this petition would be reduced.</p>	<b>nod</b>

	retained, therefore the project would result in a 33-lot subdivision. There is an existing two-story single-family structure located on the western portion of the site which would be demolished. The site also includes a pump house, wooden water tank and storage shed which would also be demolished. The Lux Barn, also on the site, would either be demolished or moved. The site has been in limited agricultural use since the 1930's.		
2000021104	Project No. 99-148:CUP NO. 99-148 Los Angeles County Department of Regional Planning Palmdale--Los Angeles The proposed project is a request for a Conditional Use Permit to authorize the property to be used as a weekend retreat center for minors aged 5 to 17.	neg	03/28/2000
2000021105	EA SF 4-99; (a) Amendment of Zoning Map No.79; Zone Change Case No. 29; (b) Alteration of the Boundaries of Agricultural Preserve No. 8-Exclusion; (c) Tentative Kern County Planning Department McKittrick--Kern A modification of a Conditional Use Permit to include but not be limited to an increase in pit depth and a one-time excursion into a 5-acre area outside the permitted mine boundaries for this Conditional Use Permit (Resolution 182-82; approved July 1, 1982) which allowed a surface mining and reclamation plan in accordance with the Surface Mining and Reclamation Act of 1975. The project site is an existing shale gravel mine permitted for a 10-acre area within an approximate 76-acre parcel. During a recent survey of the mine site, it was determined that the permitted depth limit had been exceeded and that the operator had encroached on an approximate 5-acre area outside the permitted mine boundary. The project includes a request to remove a condition that requires the operator to leave the mine site level with surrounding terrain, thus allowing for an increase in depth to 75 feet and to allow for a one-time excursion into an approximate 5-acre area adjacent to but outside the permitted mine boundary. The area impacted by the one-time excursion is to be immediately reclaimed and no additional disturbance is proposed in the area.	neg	03/28/2000
2000021106	Walker Tract Map San Luis Obispo County Los Osos--San Luis Obispo Subdivide a 7.0 acre parcel into 31 lots, ranging in size from 6,000 to 10,000 square foot and a one acre open space parcel that is non-buildable	neg	03/28/2000

1999071061	<p>Goleta Sanitary District/Atascadero Creek Trunk Sewer Line Replacement Santa Barbara County Goleta--Santa Barbara</p> <p>Replacement of approx. 7,048 lineal ft. of existing, techtite sewer line varying in diameter from 24" to 30" with a new 33" polyethylene line using "pope bursting" technology. The replacement would run from Manhloe (MH) #08M06 on Ward Dr. south to MH #09M01 then turn east and follow the Atascadero Creek Bikepath to MH #08N13 on the west side of Maria Ygnacio Creek. The existing sewer line that crosses Maria Ygnacio Creek within a concrete encasement would not be involved with this project. The replacement would then re-start on the east side of Maria Ygnacio Creek at MH #08P02 and go to MH #08P69 at the southern terminus of Walnut Dr.</p>	<b>nod</b>	
1999092073	<p>Marin Public Safety &amp; Emergency Communications Radio System Marin Emergency Radio Authority --Marin, Sonoma</p> <p>This project is a Public Agency Telecommunications System. It consists of a network of microwave dishes, radio antennas, and radio equipment. It allows regional conversations between dispatchers and mobile units throughout Marin County.</p>	<b>nod</b>	
1999101037	<p>Rosamond Community Services District, Wastewater Treatment Plant Expansion Rosamond Community Services District Rosamond--Kern</p> <p>Expansion of the RCSD's WWTP, Including grit removal, flow splitting, extended aeration reactor basin, secondary clarifier, chemical feed and sludge drying beds.</p>	<b>nod</b>	
1999121047	<p>Escondido Creek Enhancement Project-Hale Avenue Resource Facility (HARRF) Flood Protection Structure Escondido, City of Escondido, Harmony Grove--San Diego</p> <p>The project would be located within a portion of Escondido Creek within both the City of Escondido and County of San Diego and encompass an area from the Harmony Grove Road Bridge to approximately 900 feet south of the HARRF plant, a distance of approximately 2,500 feet. The project area would be located entirely within the existing levees, a distance of up to 400 feet in width. The City proposes to alter the existing channel through the raising of the existing earthen levees from 0.5 to 3.0 feet in order to protect the HARRF and surrounding land uses from 100-year storm events. The edges of the newly raised levees would be replanted with Oak Riparian Forest-a habitat native to Escondido Creek. In conjunction with the levee raising, a majority of existing vegetation including non-native habitats such as eucalyptus woodland, giant cane and castor bean dominated habitat within the creek, would be removed in an effort to recreate a native riparian ecosystem. The revegetation plan for the creek would involve planting of southern willow scrub, sycamore alluvial woodland and freshwater marsh, all native habitats to Escondido Creek.</p>	<b>nod</b>

2000028276	Reissuance of NPDES Permit for Tosco Corporation, San Francisco Area Refinery at Avon Reg WQCB #2 (San Francisco Bay), Oakland --Contra Costa Nature: Waste Discharge Requirements Purpose: Reissuance of NPDS Permit for Effluent Discharge Beneficiaries: People of California	noe	
2000028277	Relinquishments of Highway 275: 03-Sac-275 PM 0.11/1.13 to the City of Sacramento and 03-Yol-275 PM 20.04/20.94 to the City of West Sacramento Caltrans #3 Sacramento, West Sacramento--Sacramento, Yolo The proposed project will relinquish ownership of State Route 275 to local city governments in accordance with California Streets and Highway Codes Section 73.1. This will allow the local governments manage these sections of highway for local transportation needs.	noe	
2000028278	Construct Gabion Blanke Beneath Slate Creek Bridge Department of Transportation Lamoine--Shasta In Shasta County near La Moine. This project proposes to correct an erosion problem by constructing a gabion blanket (rocks enclosed by wire) beneath the Slate Creek Bridge (no. 6-28). The erosion problem stems from drain holes in the bridge deck and is not related to either Slate Creek or nearby Sacramento River. No work is planned within the ordinary high water mark of either waterway. Permits will not be required. No additional Right-of-Way or construction easements are required.	noe	
2000028279	Burney Maintenance Station Rehabilitation Department of Transportation Burney--Shasta In Shasta county at the Burney Maintenance Station. This project proposes to construct new structures for equipment and materials storage, a new hot-wash rack, a storm water detention basin, and replace or rehabilitate pavement. A temporary construction easement is required. Any material contaminated with hazardous materials (HAZMAT) shall be disposed of at a proper HAZMAT facility prior to construction of the project.	noe	
2000028280	Thin AC Blanket Overlay Department of Transportation --Lassen, Plumas, Tehama In various locations in Tehama, Plumas, and Lassen counties. This project involves digging out areas of failed asphalt concrete (AD) to a maximum depth of 3 inches, and back filling with new AC, cold planing AC beneath underpasses (loc.4 only), placing a 1 inch AC overlay on existing pavement, placing shoulder backing material to a maximum width of 3 feet from the edge of pavement, and replacing pavement stripes with thermoplastic striping. All work will be conducted within the existing roadbed prism. The contractor will be responsible for disposing of AC grindings outside of Caltrans right-of-way. No additional right-of-way or construction easements are required. At location 5, an environmentally sensitive area (ESA) is designated from three feet beyond existing EP on both sides of the roadway from postmiel 7.7 to postmiel 8.2.	noe

2000021111	UCIMC Long Range Development Plan University of California, Regents of the Orange--Orange Each campus and off-campus medical center in the University of California (UC) system is required to periodically reexamine its academic goals and formulate physical plans to support these goals. This reexamination takes the form of a Long Range Development Plan (LRDP), which guides the physical development of the campus to achieve the academic, research, patient care, and community service missions of the institution. The LRDP identifies goals to be achieved during the buildout period of the LRDP, and estimates the types and amounts of new building space required to achieve these goals. The proposed UCI Medical Center LRDP will serve as the "general plan" to guide the physical development of the UCI Medical Center. It does not constitute a commitment to any specific projects, construction schedules, or funding priorities. As such, the University has determined that a Program EIR will be required to assess the potential environmental effects associated with implementation of the UCI Medical Center LRDP project. The Program EIR is intended to also provide project-level environmental analysis for near-term individual construction projects associated with the LRDP. Subsequent, individual construction projects will require project-specific review and approval by The University of California Regents, in accordance with CEQA.	<b>nop</b>	03/29/2000

1995111020	EXPANSION OF THE GALLERIA AT SOUTH BAY Redondo Beach, City of REDONDO BEACH--LOS ANGELES The project consists of the demolition of two existing movie theatres and the construction of a new, 93,702 square-foot retail structure on property located within a Commercial-Regional (CR) zone. The new retail structure is being constructed for the purpose of operating a retail business, known as "Expo Design Center" that displays and sells middle to high-end interior design products and services. The proposed retail structure is to be located at the south end of a regional shopping center known as "Galleria at the South Bay". The approval of the proposed project is consistent with the City's goal for the subject property, as contained in the General Plan, which states that the goal for regional-serving land uses is to provide land uses which attract a regional customer base and contribute significant revenue to the City. The primary objective is to allow for the continuation and expansion of regional-serving specialty, entertainment, and related uses at the Galleria at South Bay and adjacent properties classified as Commercial Regional.	eir	03/31/2000

2000022067	Restoration of Canada del Cierbo Contra Costa County Crockett, Rodeo--Contra Costa The Contra Costa County Flood Control District (District) and the Contra Costa County Public Works Department (Department) proposes to create and restore ten acres containing degraded/marginal riparian floodplain, and seasonal herbaceous wetlands to mitigate for past and future unavoidable impacts to wetland resources. The site is located in the Canada del Cierbo southeast of the Cummings Skyway / I-80 interchange. The project will be built in two phases. The first phase will create 1.22 acres of wetlands to mitigate for unavoidable impacts incurred during two previous projects: the emergency landslide repair of Hill 310, and the extension of Cummings Skyway from I-80 to San Pablo Ave (Figure 3). Phase 1 will be restored in the summer and fall of year 2000. The second and final phase will be constructed after the Department and District have created a mitigation banking instrument with the US Army Corps of Engineers (Figure 4). The intent of the phasing is to quickly mitigate for past projects, while allowing for adequate time to negotiate the banking instrument.	neg	03/20/2000
1993062028	SIERRA COUNTY GENERAL PLAN Sierra County Croce-Zone Amendment: Zone amendment from Single Family Residential (R-1) to Community Commercial (CC), consistent with the Sierra County General Plan. 	2004, for industrial maintenance coatings and January 1, 2003, for all other coating categories. Other components of the proposed SCM include a three-year "sell-through" provision (for coatings manufactured before the applicable effective dates), definitions, test methods, standards for painting practices and thinning of coatings, and container labeling and reporting requirements. The Draft Program EIR concludes that no significant adverse environmental effects would result from the proposed project.		
1999101083	Merced County Courthouse Facility Merced County Merced--Merced Construction of a 50,000 square foot building at the corner of M and 22nd Streets in Merced for use by the County Courts. The 3-story building would require the demolition of the Old Library, a listed historic resource. The project includes remodeling of other existing court buildings.	eir	04/03/2000
2000021064	General Plan Amendment No. 99010 Merced County Hilmar--Merced To amend the General Plan from Hilmar Specific Urban Development Plan (SUDP) Residential Reserve to Hilmar SUDP Low Density Residential with a concurrent zone change from the A-1 (General Agriculture) to R-1 (Single Family Residential) along with Conditional Use Permit for construction of a family center building consisting of classrooms, recreation facilities, and community centers.	neg	03/17/2000
2000021065	101 14th Street Pacific Grove, City of Pacific Grove--Monterey Demolition of existing 2 unit dwelling group and construction of a new single family residence on the site. The proposed project includes examination in an archaeologically sensitive area of the coastal zone.	neg	03/17/2000
2000021066	Emergency Generator & Fuel Storage Tank for Hopkins Marine Station Pacific Grove, City of Pacific Grove--Monterey Emergency Generator & Fuel Storage Tank.	neg	03/17/2000
2000022068	Bruns Ranch Partnership Tentative Parcel Map Alpine County --Alpine The project is a proposed subdivision of approximately 189 acres into three one-acre lots and a remainder parcel containing 186 acres. The site is located approximately 1 1/2 miles south of the California-Nevada state line and 1/2 mile east of State Route 88. More specifically, the parcel is located on Foothill Road, just south of Fredericksburg Road. Access to the proposed 1-acre lots will be from Foothill Road. The portion of the site proposed for development is moderately sloping (approximately 10% grade) bench with sage brush as the dominant land cover.	neg	03/30/2000

2000022070	<p>City of Vacaville Corporation Yard Expansion Vacaville, City of Vacaville--Solano</p> <p>Expand the existing City Corporation Yard. The corporation yard includes facilities for maintenance and fueling of City vehicles, storage of bulk quantities of construction and repair materials for road and pipeline work, and the City's water treatment plant. The expanded facilities will provide for new office spaces, parking and storage for public works, transit contractors, employees and equipment. The corporation yard expansion will be completed in phases. The first phase would include improvements to accommodate a transit facility for the storage and operation of City buses including a transit office (2800 sq. ft.), and parking for 25 buses, 8 paratransit vehicles, and 28 employees and visitors.</p>	neg	03/17/2000
1999111001	<p>Dos Lagos Specific Plan, General Plan Amendment, Annexation and Redevelopment Plan Corona, City of Corona--Riverside</p> <p>The Dos Lagos Specific Plan, Annexation No. 94, and the actions and/or plans necessary to facilitate the project include, but are not limited to: A) a Request for Annexation (from Riverside County into the City of Corona), B) a General Plan Amendment, C) a Specific Plan for the Dos Lagos project, D) the adoption of a Redevelopment Area by the City of Corona for the Dos Lagos Specific Plan, F) Resource Agency permitting for the Dos Lagos project, and G) a possible master subdivision map. The project will annex a total of 929.7 acres into the City of Corona and adopt City zoning, general plan and specific plan designations for a mixed-use project of approximately 542 acres within the larger annexation area.</p>	nop	03/20/2000
2000021044	<p>Pacific Heights Los Angeles County Department of Regional Planning Hacienda Heights--Los Angeles</p> <p>The project will consist of 50 single-family homes, a water tank and supporting manufactured slopes and infrastructure on 38.2 acres of a 114.3-acre site in the community of Hacienda Heights, Los Angeles County, California. The 38.2-acre developed area will consist of 20.8 acres of vegetated cut and fill slopes, including detention/debris basin, and 17.4 acres of streets, developed lots and infrastructure. The remaining 76.1 acres will be preserved and donated as natural open space. The proposed Tentative Tract Map is shown in Exhibit 1. Approximately 2,560 feet of residential streets, with associated underground water, sewer and utility lines, will be constructed to serve the residences. Streets will be curb and gutter and range from 34 feet to 36 feet wide with six-foot-wide sidewalks in 55-foot to 64-foot right-of-ways. A private road 1,920 feet long will provide access to the water tank. Cut and fill will be approximately 688,000 and 671,600 cubic yards, respectively, with a maximum of 16,400 cubic yards of export. Access, water, sewer and utilities are already available to the site. No off-site improvements are anticipated.</p>	nop	03/20/2000

2000022075	Zelinsky Park/Railroad Marsh Floodplain Landscape Project Tiburon, City of Tiburon--Marin The project proposes improvements to the project site intended to provide a formalized passive recreation area, and to suitably recognize the Zelinsky Family for its many contributions to the Town of Tiburon, including donation of the land upon which the Belvedere-Tiburon Public Library and Tiburon Town Hall buildings are constructed. The proposed project would involve limited site grading, installation of drainage and irrigation lines, installation of landscaping, an honorary monument to the Zelinsky Family, pedestrian walkways, benches and/or picnic tables, shade structures such as trellises), and other passive recreational features within the subject area. Non-native invasive species would be removed, although some of the larger acacia trees along the margin of the marsh may remain.	neg	03/22/2000
2000022076	Placerville Drive Bridge Widening at Hangtown Creek Placerville, City of Placerville--El Dorado Bridge widening to match the current configuration of the new previously widened Placerville Drive which consists of two 12' lanes, a 14' turn lane and two 6' shoulders (for bike lanes). The project will require increasing the width of the bridge crossing by approximately 26' and will require extending the abutment on the existing creek alignment.	neg	03/22/2000
2000022077	Sheldon Estates II Community Plan Amendment, Rezone, Vesting Subdivision Map & Special Development Permit Sacramento County Elk Grove--Sacramento The proposed project includes a request for: 1. A Community Plan Amendment and Rezone for 39.3 acres from RD-5 and O to RD-4 and O. 2. A Vesting Subdivision Map to create 122 residential lots, two open space lots, one park lot and two landscape lots. 3. A Special Development Permit to reduce the front yard setback from 20 feet to 15 feet and reduce the lot area from 8,500 square feet to 8,000 square feet for limited numbers of lot. 4. A Rescission of prior zoning agreement, adopted by Resolution No. 95-1250.	neg	03/22/2000

2000029021	Soul of the Wolf Wildlife Sanctuary San Diego County, DPLU Warner Springs--San Diego The project is a Minor Use Permit for an animal sanctuary for wolves, lions, tigers, foxes and servals. The animals were all born in captivity and have been brought to the sanctuary because the animals were abandoned or let go by previous owners. The property is 40 acres in size located in remote area of the County. The animals will be kept in double entry steel cages on the property with a additional fence around the animal compound portion of the site. Based on the results of a noise study, noise attenuation walls must be constructed to assure that noise from howling wolves and roaring lions are mitigated to below a level of significant. The project is consistent with the General Plan because animal raising is anticipated by the (18) Multiple Rural Land Use Designation which is applied in remote areas to broad expanses of rural land with the overall low population density and with an absence of most public services. The property is zoned S92 General Rural and contains an "O" Animal Use Type Designator which permits Specialty Animal Raising Wild or Undomesticated Use Type with approval of a Minor Use Permit pursuant to The Zoning Ordinance Section 3100; therefore, the proposed project is consistent with plan and zone.	<b>nod</b>

2000021095	Proposed Well Site "D-1" Crescenta Valley County Water District Glendale--Los Angeles Replacement of an existing CVWD groundwater well a new groundwater well.	neg	03/24/2000
2000021100	El Monte Operable Unit Early Response Action Program San Gabriel Basin Water Quality Authority Rosemead--Los Angeles The San Gabriel Basin provides drinking water for over a million residents. Volatile Organic Compound (VOC) contamination was discovered in several areas during the late 1970s. In 1984, the San Gabriel Valley was placed on the U. S. Environmental Protection Agency's (EPA) National Priorities List (Superfund). The El Monte Operable Unit is one of the areas requiring cleanup under the Superfund laws. The El Monte Operable Unit is one of the areas requiring cleanup under the Superfund laws. EPA has released their proposed plan that describes their preferred alternative for containing and preventing further contaminant migration. The San Gabriel Basin Water Quality Authority (WQA) has partnered with the Northwest El Monte Community Task Force and the city of El Monte to fund a portion of the remedial actions. AS WQA is also funding a portion of the project, WQA has undertaken this initial Study to fulfill California Environmental Quality Act requirements.	neg	03/24/2000
2000021102	Susnar Commercial Building Santa Barbara County Montecito--Santa Barbara Develop a net 9,816 square feet of new development, w/10,236 square feet of total development. One apartment unit is also proposed.	neg	03/24/2000
2000022089	Siskiyou County Agriculture Department (Small Animal Impound Facility) Siskiyou County Planning Department Yreka--Siskiyou The County Animal Control Office proposes to develop a small animal impound facility to meet the growing demands of the County's Animal Control activities. The facility would include a small office area, equipment storage room, and 20 heated and enclosed kennels, within a 1,400 square-foot building with concrete floor. A low-cost spray and neuter clinic may be incorporated within the facility. The structure would be built adjacent to the existing County-owned carport and storage building.	neg	03/24/2000
2000022090	Surface Water Supply Agreement with South San Joaquin Irrigation District & Phase 1 - Jack Golf Course Groundwater Recharge Project Ripon, City of Ripon--San Joaquin Surface Water Supply Agreement with the South San Joaquin Irrigation District (SSJID). The City of Ripon has entered into an agreement with the South San Joaquin Irrigation District for a surface water supply. The City intends to initially use the water for ground water recharge. The most economic and expedient approach to utilizing the water is to select recharge locations adjacent to or very near to existing District distribution canals of conduits. The District normally delivers water during the irrigation season, March 15 through October 15. Currently there are three (3) groundwater recharge projects planned to implement the agreement with the Jack Tone Golf Course project being the Phase 1. Phase	neg	03/24/2000

1998032010	LAKE MADRONE WATER DIST. APPL. TO SWRCB FOR DAM & RESERVOIR Lake Madrone Water District Application 30657 seeks an appropriate water rights to divert 200 acre-feet per annum (afa) of water to storage from Berry Creek tributary to the North Fork reservoir with a capacity of 200 acre-feet. The water will be diverted to storage from March 1 to April 15 of each year for the non-consumptive purpose of recreation, fish and wildlife preservation and enhancement, and fire protection. The project consists of a reservoir and an earth and concrete dam 35 feet high and 350 feet long. The reservoir has a surface area of approximately 25 acres and has a maximum depth of 25 feet, when full. No new construction or site clearing activities will be associated with the project. The applicant states that it diverts water to storage only when the reservoir has been lowered for maintenance and needs to be refilled. The season of diversion specified in A30657 is limited to March 1 to April 15.	<b>nod</b>	
1998081038	Hill Canyon Wastewater Treatment Plant Expansion Thousand Oaks, City of Thousand Oaks--VENTURA The proposed project includes the construction of tertiary filters, a secondary clarifier, gravity belt thickening facility, new belt press dewatering/generator facility, instrumentation and control system, rapid mixing chamber/ flocculation basin, electrical/mechanical/generator/fuel storage system, site/yard piping improvements, laboratory/operations/administration building, main/secondary access bridges, and maintenance buildings.	<b>nod</b>	
1998124006	Construct Passing Lanes & Improve Shoulder on Route 154 Caltrans, HQ Santa Ynez, Solvang--Santa Barbara This project would construct east and west-bound passing lanes, left-turn channels and improve the shoulder of Route 154 east of Paradise Road in Santa Barbara County.	<b>nod</b>	
1999042087	El Dorado Reservoir Line, Cover, and Tank Project El Dorado Irrigation District The project consists of retrofitting 11 existing open reservoirs with concrete liners and concrete or metal cover, replacement of the open reservoirs with steel storage tanks, or temporary decommissioning of the sites.	<b>nod</b>	
1999071109	Realignment of Route 101 Southbound Lanes Near Pinecate Rocks California Department of Transportation Aromas, San Juan Bautista--San Benito Increase the existing horizontal curve radius of the southbound lanes from 305 meters (1000') to 518 meters (1700') by realigning them into the median between the project limits (approximately Cannon Road to Cole Road.)	<b>nod</b>

	freeway landscape, golf courses, parks, school grounds, and homeowners association and arterial landscape.		
1999121110	<p>Rancho Jamul Mitigation Bank California Department of Fish and Game Jamul--San Diego</p> <p>The project applicant proposes to establish a wetland mitigation bank on the Rancho Jamul Ecological Reserve, San Diego County. California Department of Fish and Game is adopting a Negative Declaration and executing a Lake and Streambed Alteration Agreement pursuant to Section 1603 (SAA No. 5-287-99) of the Fish and Game Code to the project applicant, Wildlife Inc. The project would impact at worst 5,632 feet of wetlands habitat (willow riparian and freshwater marsh) to place headcut stabilization structures within Jamul Creek which would provide long-term benefits to function. Impacts would be off-set through removal of exotic plants and long-term management of 3 acres of stream channel along Jamul Creek. A wetlands mitigation bank would be created through the creation of 45 acres of wetland habitat and 1.7 acres of unvegetated stream channel along portions of Dulzura and Jamul Creeks. In addition, 51.8 acres of existing stream channel would be enhanced through the removal of exotic plants and long-term management.</p>	<b>nod</b>	
20000122006	<p>Temporary Urgency Change By The U.S. Bureau Of Reclamation To Add The State Water Projects Water Resources Control Board, State --San Joaquin</p> <p>Reclamation proposes to add the State Water Project's (SWP) Harvey O. Banks Pumping Plant as an additional point of diversion and rediversion under Reclamation's above-listed water right permits. Approval of the petition would allow Central Valley Project (CVP) water appropriated under the above-listed water right permits to be directly diverted and/or rediverted from storage at the SWP Banks Pumping Plant and delivered through the SWP facilities to O'Neill Forebay and then to storage in San Luis Reservoir. Reclamation is requesting the change to facilitate the diversion and storage of CVP water in the federal portion of San Luis Reservoir so that the river can be filled to capacity when water becomes available sometime between now and April 15,2000. The CVP's inability to fill the federal portion of San Luis Reservoir without using the Banks Pumping Plant is a result of environmental protection actions taken in 1999. The estimated shortfall would have resulted in lower allocation of CVP water for CVP purposes or in decreased storage of CVP water in San Luis Reservoir at the end of the water year 2000. Absent the approval of the request, the SWP would use the excess capacity at Banks to move water into the federal share of San Luis Reservoir for use by the SWP. The amount of water requested under this change is not to exceed 244 thousand acre-feet (TAF) of CVP water appropriated under the above-listed water right permits assuming the 50 percent exceedance hydrology and the availability of excess flows. Under the 90-percent exceedance hydrology, project operations are limited by available water supply rather than Tracy pumping capacity. Hence, under dry conditions, Reclamation's diversions under this petition would be reduced.</p>	<b>nod</b>

2000028253	Pyramid Lake Boat launch Fish & Game #5 Castaic, Gorman--Los Angeles Construct a 880sq. ft. safety boat boardinng float adjacent to existing concrete boat launch ramp. Six steel piles will be installed in the lake bottom to support the boarding float. The lake will be drawn down to facilitate installation.	noe	
2000028254	Campbell Shipyard Remediation Port of San Diego San Diego--San Diego The proposed project constitutes part of the application's compliance with cleanup and Abatement Order No. 95-21, issued by the RWCQB in May 1995. To implement the requirements of the CAO, the project will involve the removal and off-site disposal of all land and waterside structural improvement; landside soil remediation, bay sediment dredging, dewatering, and disposal; and rough grading of the project site.	noe	
2000028255	Site Acquisition for New South Lake Tahoe CHP Facility California Highway Patrol, Department of Meyers--El Dorado The proposed project consists of transfer of title for adjacent parcels currently owned by the California Department of Food and Agriculture to the Department of California Highway Patrol (CHP).	noe	
2000028256	Proposed lease of office space. Justice, Department of Lakewood--Los Angeles Project is for lease off office space.	noe	
2000028257	McCloud Fuel Break Forestry And Fire Protection, Department of Yreka-- The Shasta-Trinity National Forest and private industrial timberlands surround The Community of McCloud, once a thriving lumber mill town. Over the years, the town has become a tourist attraction with the development of a ski resort, excursion train, and outdoor recreation; thus multiplying public interest and the seasonal population.	noe	
2000028258	Foresthill Shaded Fuel Break Forestry And Fire Protection, Department of Auburn-- This project entails removing un-merchantable sized trees and brush to create a modified shaded fuel break as part of a three component project to reduce the potential of costly and damaging wildfire to the Foresthill area.	noe	
2000028259	Applegate Shaded Fuel Break Forestry And Fire Protection, Department of Auburn-- This project entails removing un-merchantable sized trees and brush to create a modified shaded fuel break as part of a three component project to reduce the potential of a costly and damaging wildfire to the Applegate/Meadow Vista area. the fuel break will be constructed along existing roads and will vary in width from approximately 30 to 50 feet from the road shoulder or ditch on either side.	noe

	retained, therefore the project would result in a 33-lot subdivision. There is an existing two-story single-family structure located on the western portion of the site which would be demolished. The site also includes a pump house, wooden water tank and storage shed which would also be demolished. The Lux Barn, also on the site, would either be demolished or moved. The site has been in limited agricultural use since the 1930's.		
2000021104	Project No. 99-148:CUP NO. 99-148 Los Angeles County Department of Regional Planning Palmdale--Los Angeles The proposed project is a request for a Conditional Use Permit to authorize the property to be used as a weekend retreat center for minors aged 5 to 17.	neg	03/28/2000
2000021105	EA SF 4-99; (a) Amendment of Zoning Map No.79; Zone Change Case No. 29; (b) Alteration of the Boundaries of Agricultural Preserve No. 8-Exclusion; (c) Tentative Kern County Planning Department McKittrick--Kern A modification of a Conditional Use Permit to include but not be limited to an increase in pit depth and a one-time excursion into a 5-acre area outside the permitted mine boundaries for this Conditional Use Permit (Resolution 182-82; approved July 1, 1982) which allowed a surface mining and reclamation plan in accordance with the Surface Mining and Reclamation Act of 1975. The project site is an existing shale gravel mine permitted for a 10-acre area within an approximate 76-acre parcel. During a recent survey of the mine site, it was determined that the permitted depth limit had been exceeded and that the operator had encroached on an approximate 5-acre area outside the permitted mine boundary. The project includes a request to remove a condition that requires the operator to leave the mine site level with surrounding terrain, thus allowing for an increase in depth to 75 feet and to allow for a one-time excursion into an approximate 5-acre area adjacent to but outside the permitted mine boundary. The area impacted by the one-time excursion is to be immediately reclaimed and no additional disturbance is proposed in the area.	neg	03/28/2000
2000021106	Walker Tract Map San Luis Obispo County Los Osos--San Luis Obispo Subdivide a 7.0 acre parcel into 31 lots, ranging in size from 6,000 to 10,000 square foot and a one acre open space parcel that is non-buildable	neg	03/28/2000

<b><u>Documents Received on Monday, February 28, 2000</u></b>			
1999071061	<p>Goleta Sanitary District/Atascadero Creek Trunk Sewer Line Replacement Santa Barbara County Goleta--Santa Barbara</p> <p>Replacement of approx. 7,048 lineal ft. of existing, techtite sewer line varying in diameter from 24" to 30" with a new 33" polyethylene line using "pope bursting" technology. The replacement would run from Manhloe (MH) #08M06 on Ward Dr. south to MH #09M01 then turn east and follow the Atascadero Creek Bikepath to MH #08N13 on the west side of Maria Ygnacio Creek. The existing sewer line that crosses Maria Ygnacio Creek within a concrete encasement would not be involved with this project. The replacement would then re-start on the east side of Maria Ygnacio Creek at MH #08P02 and go to MH #08P69 at the southern terminus of Walnut Dr.</p>	<b>nod</b>	
1999092073	<p>Marin Public Safety &amp; Emergency Communications Radio System Marin Emergency Radio Authority --Marin, Sonoma</p> <p>This project is a Public Agency Telecommunications System. It consists of a network of microwave dishes, radio antennas, and radio equipment. It allows regional conversations between dispatchers and mobile units throughout Marin County.</p>	<b>nod</b>	
1999101037	<p>Rosamond Community Services District, Wastewater Treatment Plant Expansion Rosamond Community Services District Rosamond--Kern</p> <p>Expansion of the RCSD's WWTP, Including grit removal, flow splitting, extended aeration reactor basin, secondary clarifier, chemical feed and sludge drying beds.</p>	<b>nod</b>	
1999121047	<p>Escondido Creek Enhancement Project-Hale Avenue Resource Facility (HARRF) Flood Protection Structure Escondido, City of Escondido, Harmony Grove--San Diego</p> <p>The project would be located within a portion of Escondido Creek within both the City of Escondido and County of San Diego and encompass an area from the Harmony Grove Road Bridge to approximately 900 feet south of the HARRF plant, a distance of approximately 2,500 feet. The project area would be located entirely within the existing levees, a distance of up to 400 feet in width. The City proposes to alter the existing channel through the raising of the existing earthen levees from 0.5 to 3.0 feet in order to protect the HARRF and surrounding land uses from 100-year storm events. The edges of the newly raised levees would be replanted with Oak Riparian Forest-a habitat native to Escondido Creek. In conjunction with the levee raising, a majority of existing vegetation including non-native habitats such as eucalyptus woodland, giant cane and castor bean dominated habitat within the creek, would be removed in an effort to recreate a native riparian ecosystem. The revegetation plan for the creek would involve planting of southern willow scrub, sycamore alluvial woodland and freshwater marsh, all native habitats to Escondido Creek.</p>	<b>nod</b>

2000028276	Reissuance of NPDES Permit for Tosco Corporation, San Francisco Area Refinery at Avon Reg WQCB #2 (San Francisco Bay), Oakland --Contra Costa Nature: Waste Discharge Requirements Purpose: Reissuance of NPDS Permit for Effluent Discharge Beneficiaries: People of California	noe	
2000028277	Relinquishments of Highway 275: 03-Sac-275 PM 0.11/1.13 to the City of Sacramento and 03-Yol-275 PM 20.04/20.94 to the City of West Sacramento Caltrans #3 Sacramento, West Sacramento--Sacramento, Yolo The proposed project will relinquish ownership of State Route 275 to local city governments in accordance with California Streets and Highway Codes Section 73.1. This will allow the local governments manage these sections of highway for local transportation needs.	noe	
2000028278	Construct Gabion Blanke Beneath Slate Creek Bridge Department of Transportation Lamoine--Shasta In Shasta County near La Moine. This project proposes to correct an erosion problem by constructing a gabion blanket (rocks enclosed by wire) beneath the Slate Creek Bridge (no. 6-28). The erosion problem stems from drain holes in the bridge deck and is not related to either Slate Creek or nearby Sacramento River. No work is planned within the ordinary high water mark of either waterway. Permits will not be required. No additional Right-of-Way or construction easements are required.	noe	
2000028279	Burney Maintenance Station Rehabilitation Department of Transportation Burney--Shasta In Shasta county at the Burney Maintenance Station. This project proposes to construct new structures for equipment and materials storage, a new hot-wash rack, a storm water detention basin, and replace or rehabilitate pavement. A temporary construction easement is required. Any material contaminated with hazardous materials (HAZMAT) shall be disposed of at a proper HAZMAT facility prior to construction of the project.	noe	
2000028280	Thin AC Blanket Overlay Department of Transportation --Lassen, Plumas, Tehama In various locations in Tehama, Plumas, and Lassen counties. This project involves digging out areas of failed asphalt concrete (AD) to a maximum depth of 3 inches, and back filling with new AC, cold planing AC beneath underpasses (loc.4 only), placing a 1 inch AC overlay on existing pavement, placing shoulder backing material to a maximum width of 3 feet from the edge of pavement, and replacing pavement stripes with thermoplastic striping. All work will be conducted within the existing roadbed prism. The contractor will be responsible for disposing of AC grindings outside of Caltrans right-of-way. No additional right-of-way or construction easements are required. At location 5, an environmentally sensitive area (ESA) is designated from three feet beyond existing EP on both sides of the roadway from postmiel 7.7 to postmiel 8.2.	noe

2000021111	UCIMC Long Range Development Plan University of California, Regents of the Orange--Orange Each campus and off-campus medical center in the University of California (UC) system is required to periodically reexamine its academic goals and formulate physical plans to support these goals. This reexamination takes the form of a Long Range Development Plan (LRDP), which guides the physical development of the campus to achieve the academic, research, patient care, and community service missions of the institution. The LRDP identifies goals to be achieved during the buildout period of the LRDP, and estimates the types and amounts of new building space required to achieve these goals. The proposed UCI Medical Center LRDP will serve as the "general plan" to guide the physical development of the UCI Medical Center. It does not constitute a commitment to any specific projects, construction schedules, or funding priorities. As such, the University has determined that a Program EIR will be required to assess the potential environmental effects associated with implementation of the UCI Medical Center LRDP project. The Program EIR is intended to also provide project-level environmental analysis for near-term individual construction projects associated with the LRDP. Subsequent, individual construction projects will require project-specific review and approval by The University of California Regents, in accordance with CEQA.	<b>nop</b>	03/29/2000
2000022106	Amador Water Transmission Project Amador Water Agency Jackson--Amador The Amador Water Agency is the lead agency for the preparation of a focused Environmental Impact Report for the implementation of the Amador Water System Transmission Project (proposed project). The proposed project would improve water quality; improve water supply reliability and conveyance; reduce the risk of contamination; reduce water loss; reduce operation and maintenance costs; utilize maximum flow availability; and more efficiently use existing water entitlements.	<b>nop</b>	03/29/2000
